

Our performance level indicators can be found next to each of our products, use them to help determine the right filtration level for your home.

level 1

MERV 1-4

level 2

MERV 7

level 3

MERV 8

level 4

MERV 11

level 5

MERV 13

Clear the Air Level 1

Clear the Air Level 2 \$3.17 each*

3M Filtrete 600 Dust and Pollen \$9.97 each*

3M Filtrete 700 Micro Particle Reduction \$9.97 each*

Clear the Air Level 3 \$3.75 each* Save 62%

3M Filtrete 1000 Micro Allergen \$10.97 each*

3M Filtrete 1250 Ultra Allergen \$15.97 each*

Clear the Air Level 4 \$5.42 each* Save 66%

3M Filtrete 1500 Advanced Allergen \$16.97 each*

3M Filtrete 1900 Ultimate Allergen \$19.97 each*

Clear the Air Level 5 \$8.33 each* Save 58%

What is MERV? To rate the effectiveness of a furnace filter The Heating and Air Conditioning industry uses ASHRAE 52.2 testing which assigns a Minimum Efficiency Reporting Value (MERV). The higher the MERV rating is, the more effective the filter will be in trapping airborne particles. Filter manufacturers such as 3M use their own rating system, which is not approved as an industry standard. These non-standard rating systems make it hard for the consumer to compare other products and look for the best value.

* Prices based on 1" pleated filters / size 16 X 20 X 1.
